GUIDANCE ON COMPLETION OF SUMMARY SHEET

The summary sheet is intended to assist in providing a simplified overview of the financial position of the organisation. It will primarily be used as the source for the information in the Certification Officer's annual report, and as a source for comparative year-on-year analysis. It does not replace any information required in the annual return which must be completed in full.

The figures in the summary report must agree with the figures presented elsewhere in the annual return.

In order for the figures on the summary sheet to balance the following must be correct.

Funds at beginning of year + Total income – Total expenditure = Funds at end of year

Total Assets – Total Liabilities = Net Assets

Funds at end of year = Net Assets

The "Total Income" figure for each set of funds must be the sum of the sources of income set out on the Summary Sheet.

The "Other Income" heading should be used to account for income received from sources other than members and investments, including recognised gains. Recognised gains include revaluation of assets and other changes in the value of assets which are not offset by an equal change in liabilities.

"All Accounts/Funds Other Than Political Funds" must include the Revenue/General Fund on page 4 and any other funds referred to on page 5 or any pages supplementary to them. The figures entered in this column must match those on pages 4 and 5.

"Funds at Beginning of Year" will be the sum of those funds reported in the previous return to this Office, plus or minus any adjustments made subsequently. For associations for which this is the first return, this figure will be the sum of those funds held by the association at the beginning of the period covered by this return.

The "Funds at End of Year" figure must be the sum of "Total Income" and "Funds at Beginning of Year" less "Total Expenditure".

The "Total Assets" figure must be the total of: "Fixed Assets" and "Other Assets" (the figures entered above it).

"Liabilities" must be the total of "Total Assets" less "Funds at End of Year".
