#### GUIDANCE ON COMPLETING POLITICAL FUND ACCOUNTS

- A trade union can include the furtherance of political objects among its objects providing it has adopted political fund rules through a ballot approving a resolution allowing expenditure on such objects. Those rules (and amendments) must be approved by the Certification Officer, as must the rules governing ballots approving these objects.
- 25. Where a union has expenditure or income which relate to its Political Fund the amounts should be itemised here and excluded from **all** other accounts including analysis of administrative expenses at page 15.
- 26. Most unions will only need to complete section 4. However, where a union is affiliated to another trade union and collects political fund contributions on behalf of that union section 5 will have to be completed.
- 27. Expenditure can be made from the political fund account on non-political objects and to other funds of the union.
- 28a. Figures are required for the number of Northern Ireland members\* who have completed a "contracting-in" notice and therefore contribute to the political fund;
- 28b. Figures are required for the number of Northern Ireland members who are statutorily exempt from contributing to the political fund; and
- 28c. Figures are required for the number of members outside Northern Ireland who have completed an exemption notice and therefore do not contribute to the political fund.
  - \* Unlike members in Great Britain, it is a statutory requirement that Northern Ireland trade union members must "contract-in" to a political fund in their union. Where a Northern Ireland trade union member does not "contract-in" or, having "contracted-in" subsequently decides to "contract-out" he is exempt under Northern Ireland law from contributing to the political fund. In the case of Great Britain unions completing this return the words "Article 57 of the Trade Union and Labour Relations (Northern Ireland) Order 1995 should be replaced by the words "section 82 of the Trade Union and Labour Relations (Consolidation) Act 1992".

#### OFFICIALS' SALARIES AND BENEFITS

- 31. The positions concerned are those of president, general secretary and each member of the executive.
- 32. Details are to be provided of salary and all other benefits paid from trade union funds.
- 33. The legislation does not define what constitutes a benefit. For the purpose of this return benefits are:
  - a. those designated as "taxable" benefits by the Inland Revenue.
  - b. pension/superannuation arrangements (see Notes 36-40).
  - c. redundancy and other termination payments (see Note 41).
- 34. Information is required of individual benefits with a value in excess of £100 in one accounting period. In addition to the information required above, details are also required on any loans paid from union funds.
- If salaries and benefits (including loans) are not paid in respect of the president, general secretary or member of the executive committee a **nil** return is required.

#### PENSION CONTRIBUTIONS

- Where contributions are paid from union funds into a **defined contributions scheme** in relation to the officials identified at Note 31, the amounts must be declared.
- 37. If the union operates a **defined benefits scheme** in relation to the officials at Note 31 please contact the Certification Office for advice on how such benefits should be recorded.

- 38. Where life assurance protection is included in the pension scheme the figure inserted in the pension column should include any additional contribution paid in respect of this cover.
- Where life assurance protection is provided through an arrangement separate from the pension scheme the figure paid in respect of this cover should be included in the "Benefits" column and the description column should be annotated to this effect.
- 40. Some pension schemes operate an opt out clause from the State Earnings Related Pension Scheme (SERPS). The level of employer's national insurance contributions reflects whether the scheme provides a benefit in place of part of the state benefit scheme or are paid a benefit in addition to the state benefit. It is important therefore that the correct figure for employer's national insurance contribution is provided.

#### REDUNDANCY AND TERMINATION PAYMENTS

These are payments or other benefits (including payments of salary, or in lieu of salary) made to an officer mentioned in Note 31 in connection with the termination of his/her office. Where the payment or other benefit is provided at or about the same time as the termination, or in the financial year covered by the return, the full value should be shown. If the payment or other benefit is not fully provided in that year, a description of the payment or other benefit to be provided in future years should also be shown. The cost associated with such commitments need not be shown in subsequent years in this table.

## GUIDANCE ON COMPLETION OF ANALYSIS OF INVESTMENT INCOME

- 42. Income from Unit Trusts and Investment Trusts should be included as dividends from equities.

#### GUIDANCE ON COMPLETION OF BALANCE SHEET

- 44. Fixed assets should be included as at page 23.
- 45. Investments should be quoted as at page 25.
- 46. The following should be shown as a note to the accounts, if not otherwise indicated:
  - a. particulars of any monies owing to the union in respect of loans (including overdrafts) which are secured on the assets of the union;
  - b. the general nature of any contingent liability not provided for and, where practicable, the estimated amount of the contingent liability, if it is material;\*
  - c. where practicable, the aggregate amount or estimated amount if it is material, of;
    - (i) contracts for capital expenditure, so far as not provided for; and
    - (ii) capital expenditure authorised by the governing body of the union which has not been contracted for;
  - d. if the amounts at which any fixed assets are shown are arrived at by reference to valuation;
    - (i) the years (so far as they are known to the governing body of the union) in which the assets were separately valued and the separate values, and
    - (ii) in the case of assets that have been valued during the financial year, the names of the persons who valued them and particulars of their qualifications for doing so and (whichever is stated) the basis of valuation used by them.

\*\*MARTERIALITY\* is an expression of the relative significance or importance of a particular matter in the context of financial statements as a whole. A matter is material if its omission would reasonably influence the decisions of an addressee of the auditors' report; likewise a misstatement is material if it would have similar influence. Materiality may also be considered in the context of any individual primary statement within the financial statements or of individual items included in them. Materiality is not capable of general mathematical definition as it has both qualitative and quantitative aspects. The assessment of what is material is a matter of professional judgement and includes consideration of both the amount (quantity) and the nature (quality) of misstatements. Auditors should consider materiality, and its relationship with audit risk when conducting an audit.

Similarly, any amount, if material (see page 20), which had been set aside for such provisions, but which is no longer required for those provisions should also be shown separately.

If no provision is made, this should also be shown as a separate note.
- 50. Under "Costs or Valuation" in the Fixed Assets Account there should be entered the cost of acquisition or, if an asset stands in the union's books at a valuation, the amount of the valuation. Where assets are entered at a valuation the headings should be amplified or amended as appropriate.
- The following should be shown as notes to the accounts, if not otherwise indicated. If the amounts at which fixed assets are shown are arrived at by reference to a valuation:

#### GUIDANCE ON COMPLETETION OF SUMMARY SHEET

The summary sheet is intended to assist in providing a simplified overview of the financial position of the organisation. It will primarily be used as the source for the information in the Certification Officer's annual report, and as a source for comparative year-on-year analysis. It does not replace any information required in the annual return which must be completed in full.

The figures in the summary report must agree with the figures presented elsewhere in the annual return.

In order for the figures on the summary sheet to balance the following must be correct.

Funds at beginning of year + Total income - Total expenditure = Funds at end of year

Total Assets – Total Liabilities = Net Assets

Funds at end of year = Net Assets

The "Total Income" figure for each set of funds must be the sum of the sources of income set out on the Summary Sheet. It should incorporate any increase by revaluation of assets, as noted in the Balance Sheet on page 21.

The "Other Income" heading should be used to account for income received from sources other than members and investments, including recognised gains. Recognised gains include revaluation of assets and other changes in the value of assets which are not offset by and equal change in liabilities.

Under "Expenditure" include any decreases noted in the revaluation reserve on page 21 (the balance sheet).

"All Funds Other Than Political Funds" must include the General Fund on page 5 and any other funds referred to on page 11 or any pages supplementary to them. The figures entered in this column must match those on pages 5 and 11.

"Political Funds" figures (if any) must match the figures entered on page 13.

"Funds at Beginning of Year" will be the sum of those funds reported in the previous return to this Office, plus or minus any adjustments made subsequently. For associations for which this is the first return, this figure will be the sum of those funds held by the association at the beginning of the period covered by this return.

The "Funds at End of Year" figure must be the sum of "Total Income" and "Funds at Beginning of Year" less "Total Expenditure".

The "Total Assets" figure must be the total of: "Fixed Assets", "Investment Assets" and "Other Assets" (the figures entered above it).

"Liabilities" must be the total of "Total Assets" less "Funds at End of Year".
